

**IMS, Inc. is proud to be an early member of the NASA Ames Technology Commercialization Center (ATCC), a NASA funded organization.**

**ELECTRO-EXPULSIVE DE-ICING SYSTEM (EEDS)**

The ATCC is the primary organization responsible for the Commercialization of NASA technology through the process of business incubation and new venture assistance. IMS was issued a Patent License in 1995 to design, manufacture and sell the Electro-Expulsive De-icing System as covered by a NASA Patent. This License was amended by Modification No. 1 in 2001. IMS is currently in production on governmental and experimental platforms.

*Thank you,  
NASA, for the  
opportunity!*
